8. JULY

KLUNKER KRANICH 17.00

David Belin

Are you the master of your impulses?

Free will is something we all hold dear, but often take for granted. David Belin takes us on a journey to understand the science and psychology regarding the nature of our impulses and the mechanisms by which we can (or cannot necessarily) control them. He will further discuss what is going wrong in the brain when impulse control goes awry, such as in addiction or Obsessive Compulsive Disorder.
